

# All custom contact lens laboratories claim to manufacture high quality lenses.

Here are some of the select few who have proven it.

## *The 2003/4 CLMA "Seal of Excellence" recipient sponsors.*

The CLMA created a testing procedure to scientifically determine whether a laboratory can consistently meet the high standards for quality control, quality assurance and measurable quality processes outlined by the American National Standards Institute (ANSI Z80.20).

The program is voluntary, but participants are subjected to rigorous procedures which insure anonymity and impartiality during testing. The sample lenses to be tested are obtained from regular prescriptions by volunteer practitioners without the knowledge of the laboratories. Dimensional and cosmetic evaluations are performed on all samples. The CLMA found the member laboratories listed below to be deserving of the "Seal of Excellence" award. It's your assurance that you are working with a company that cares deeply about quality - and proves it every day.

---

The following independent custom GP contact lens manufacturers and CLMA members have submitted their labs for extensive and blind outside testing. These labs, which also sponsor this communication, have all passed the CLMA's rigorous Quality Control Program.

Accu-Lens, Inc. (CO) – 800-525-2470  
Con-Cise Contact Lens Co. (CA) – 800-772-3911  
Corneal Design (MD) – 800-634-0785  
Corneal Lens Laboratory (VA) – 800-446-5780  
Firestone Optics, Inc. (MO) – 800-821-3606  
IVM Corporation (IL) – 800-444-6302  
International Contact Lens Labs, Inc. (NY) – 800-422-8489  
Lens Dynamics (CO) – 800-228-2691

Luzerne Optical Laboratories, Ltd. (PA) – 800-233-9637  
Paracon, Inc. (OR) – 800-547-6330  
Soderberg Contact Lens – 800-736-9339  
Tru Form Optics, Inc. – 800-792-1095  
Valley Contax (OR) – 800-547-8815  
Westlens (UT) – 800-451-3668  
Winchester Optical Co. (NY) – 800-847-9357
